47.71 clothing stores	2.85	3.49
47.74+47.75 retail sale of medical, cosmetic and toilet articles	6.88	10.98
Total	3.08	4.04

EXECUTIVE INSIGHTS

Furniture shows the clearest continued recovery but remains below its 2021 demand baseline.

Medical/cosmetic/toilet remains substantially above its 2021 baseline, although its forecast has the highest historical error.

Sports is broadly flat, while clothing is close to its 2021 level but shows a slight projected decline.

Three of five categories are projected to finish January 2027 above their latest observed demand level.

6-MONTH DEMAND OUTLOOK
